

DIGITAL LOGO GUIDELINES

To have your logo digitally applied to your documents, review the logo guidelines below and then send us a png file of your logo to support@globalwizardexports.com.

Logo Requirements:

- Logos should be square in shape (same height and width)
- Logos that are rectangular in shape should be placed on a transparent, square image and centered at the top of the square (example below)
- Logos should have a minimum DPI of 72 , however the higher the resolution the better your logo will look
- Logos should be a crisp, clean image
- Logos should not contain backgrounds

Example of what a rectangle logo should look like, prior to sending the logo to us.
